

Albany Project HOPE
Homeless Outreach and Engagement Program
Berkeley Food and Housing Project Narrative Report to City Council
April 2022-June 2022

Activities To-Date

Great care is taken when engaging with unhoused individuals who often require multiple outreaches attempts to build rapport and trust. The Albany Project Hope team continues to be available for outreach efforts when called by Albany PD, the Albany CARES team, and during regularly scheduled outreach shifts. Our Housing Navigator continues to conduct weekly and daily high-need client home visits to ensure clients receive needed support adjusting to new housing units. These home visits include checking if clients have adequate food, maintaining a level of cleanliness of the team, and not hoarding. Encourage clients to participate in essential self-care and hygiene routines, abide by the landlord and rental agreement rules, and practice other life skills for successful housing stability, including money management. Problem-solving and mediation between recently housed clients and their landlords are provided to ensure clients can maintain housing and retain relationships with landlords who, in return, will continue to partner with us in housing clients in the future.

This quarter, the Housing Navigator (HN) facilitated 146 conversations covering a wide range of topics with clients, including housing searches and options, obtaining benefits, employment, and medical care. The HN also assisted clients with with paperwork for housing or benefits 29 times. Three clients received a short-term motel stay this quarter. The HN has provided 16 referrals and linkages to other emergency housing resources and shelters. We understand that frequent home visits are critical to increasing housing retention and providing essential tenancy support to formerly homeless individuals, paired with life skills assistance. Our HN conducted 33 home visits and conversations during this quarter to support life skills development. The HN conducted outreach to 11 unsheltered persons and completed 8 housing case plans. Nine permanently housed clients have now been in their units for six months, and seven of those have maintained their housing for over 12 months. Five clients were successfully matched with PSH units through Coordinated Entry and are working with the HN to obtain updated documents and complete additional paperwork to move forward with those matches. Transportation has been essential in assisting clients in securing and maintaining permanent housing, including transport and help to view new units, transport to grocery stores, medical appointments, and obtaining money orders and other payment vouchers for their rent and shelter. The HN assisted clients with transportation support 30 times this quarter.

Outreach engagement focused on referrals from the Albany PD and Albany CARES team, including the continued support of one well-known and high-need client. The HN has continued working with this client to support them in the long process of becoming comfortable living indoors and providing much-needed linkages to more intensive psychiatric and medical services. The team supported seven clients with rental assistance this quarter. Discussions surrounding cost-share for current units and other permanent housing options continue to ensure all clients have housing stability once our services end. Staff have continued to support clients by providing

Personal Protective Equipment (PPE), such as gloves and masks, and demonstrating the proper use of PPE.

Successes

The Albany Project HOPE team has had several permanent housing matches and progress with a well-known, chronically homeless client this quarter. This client was matched to a PSH unit in Alameda but due to significant mental health issues has been reluctant to stay there consistently. Thanks to the ongoing support from the Albany Project HOPE HN, this client is slowly adapting and becoming more comfortable living inside in his own place. Five clients received PSH matches, which the team is actively pursuing. Additionally, one client completed paperwork for the request to port a section 8 voucher from HACA to Oakland Housing Authority, where the client is residing in a Rapid Rehousing unit.

We successfully backfilled the Supervisory Case Manager position with an internal candidate. This person received training and began taking on new cases immediately and has been a great support to the team. Three new clients were placed in rapid rehousing units and are actively working to collect documents to be eligible for permanent supportive housing through Alameda County's Coordinated Entry process. Additionally, we secured a second 4-bedroom master leased home to provide transitional housing assistance for clients awaiting permanent supportive housing. We've already moved a new client in who recently secured employment and anticipate moving in three additional clients in the coming weeks.

Challenges

The Senior Program Manager of Residential Services who provided most direct support to the HN in the previous quarter left the agency in at the end of May. With this vacant position the Director of Programs stepped back in to provides support to the HN and to train the new Supervisory Case Manager. Since the Director of Programs has been providing support to this program since 2021 there were no gaps in services or support.

As noted in previous quarterly reports, our clients' severe mental health disabilities make essential communication and coordination of services challenging for our team. Concerns with clients' responsiveness to phone calls, requests to meet, and their cooperation with obtaining required documentation such as accurate income statements have posed a challenge to securing housing units after a PSH match is received. Additionally, several (approximately 10) homeless individuals referred for outreach services by APD of the CARES team during the quarter either refused services or were unable to be in the community, so no enrollment was conducted. Additional challenges include some clients refusing shelter options while awaiting permanent housing while others who have a temporary shelter stay choose to return to familiar locations in the community due to mental health disabilities, creating concern among the community. Some clients receive multiple PSH matches while others have yet to receive one, making it challenging to find housing support for those clients and, in return, discouraging them. Regular mental health assistance is needed to help some clients be successful in the search for obtaining and sustaining permanent housing.

Finally, staff successfully assisted a client with completing paperwork for the request to port a section 8 voucher from the Housing Authority of Alameda County to the Oakland Housing Authority, where the client is residing in a Rapid Rehousing unit temporarily subsidized by BFHP. However, this client fell ill prior to the inspection being scheduled by the Oakland Housing Authority. Tragically, a few weeks after being discharged from the hospital into rehabilitation care this client succumbed to their illness and passed away at the end of June. Staff have been working with the client's next of kin to provide access to the unit and the client's belongings. BFHP leadership continue to provide support to staff who were working with this client and offer resources via our Employee Assistance Program.

Client Satisfaction Surveys

Twenty-eight clients completed the satisfaction surveys, comprised of twenty-two multiple-choice questions. The questions allowed clients to respond to accessing services, inclusiveness of decision making in their care, support and communications from staff, and their overall feeling of how the program has affected their stability. The survey recorded responses using a five-point scale with possible options ranging from strongly agree to disagree strongly. Overall, clients reported they either strongly agreed or agreed that they like the organization, feel like they have a say in their services, feel comfortable asking questions, and feel they are coping despite challenges and problems. Below are bar graphs detailing additional client survey responses. The full survey results are attached.

4. I receive the kinds of services that I want and need.

6. Services were available at times and places that were good for me.

8. I feel comfortable asking questions about my services.

19. I feel like I am in control of my services.

24. I am better able to control my life.

21. The services I receive are helping to resolve my problem(s).
